Shane:

Anything you have on odor complaints would be helpful. I will try to let them know that they should go through the Region 4 RRT for requests for help from the State and Feds if that's what you would like. This makes sense to me. If you need to contact me, I can be reached at 2147891627. I am at the AC in Robert, LA.

Thanks

I was contacted by our Air Div folks this a.m. They had received a request from Sector Mobile for air monitoring support. Don't know why they didn't come thru us but I have a call in to Capt. Steve Poulin, Sector Commander. We have consulted with our ATSDR rep and are contacted ERT to get their tech input on any potential monitoring techniques. We don't anticipate there is anything detectable but we may need to show that to assure the public. We have also received odor complaints via NRC reports for MS/AL. I'll forward those to you as well.

I got the call from Capt. Hanzalik on it just before the NRT call. Recommend you get an assessment from Capt. Paradis on how likely air monitoring support is to become a major mission for EPA.

Yes, I briefly heard something about it last night and some discussions this morning. Trying to track it down. They are saying Port St Joe, FL.

Understand. Just got a call from Hanzalik asking for ATSDR assistance with public complaints about petroleum odors. Has USCG talked to your about that?

Warren,

You may be called upon to go to the BP command post in Houston tomorrow.
